YTP3-32-350-1

TSA is the Transport Security Administration of the USA - enables security personnel to examine the contents of luggage without forcing the lock or damaging the bag. The bag can then be re-locked.

Certain locks have an inspection indicator - indicates if security personnel have accessed the luggage.

The **ULTIMATE** key protection

Protected by International Patent

Protected by International Trademark Law

The unique patented profile incorporates in the cross section of the key blade the Viro company name, which is also a well known registered trademark. No other manufacturer may produce key blanks or locks bearing the Viro trademark in the key section.

Unlike other security key profiles, our International Patent protects the innovation while International Trademark Law protects the key profile, even when the patent lapses after 15 years.

Standard padlocks and high security padlocks are now available with ViroMax protected key section. Key blanks are not available for sale anywhere in the world and key duplication can only be done by Viro.

CYLINDERS AVAILABLE SOON - JUST ADD PV TO THE STANDARD PRODUCT CODE

**LM** IS A CISA TRADEMARK (LM)

**MLA** IS A CISA TRADEMARK (MLA)

**SP®** IS A CISA TRADEMARK & PATENTED SYSTEM

**TSP®** IS A CISA TRADEMARK & PATENTED SYSTEM

**ASTRAL** IS A HIGH PRECISION REVERSIBLE DIMPLED SYSTEM

**AP3 SYSTEM** IS A PATENTED HIGH PRECISION REVERSIBLE DIMPLED KEY SYSTEM

**INVEST IN YOUR FUTURE  
SELL A CISA PERSONALISED KEYWAY**

CISA has introduced a range of personalised keyways in order to give the discerning locksmith an opportunity to invest in his business. The system is identified by the symbol G on the key head, followed by a code eg. G96. The personalised keyway is normally registered to a locksmith for an area of about 10km radius.

The Advantages for the Locksmith are:  
**Return business** - customers must return for any key duplication to the registered user which brings long term future business that could otherwise go to the local keybar.  
**Add-on Business** - when a KA or MK system is sold it follows that all additions must be referred to the participating locksmith.  
**Up selling** - the personalised keyways introduce the user to the concept of key security presenting opportunities to sell high security personalised systems such as "SP" and "TSP" thus increasing value of sales and increased financial benefits for the locksmith

In response to the growing need to resist the latest developments in illegal lock opening CISA now offer Cylinders **BKP** ( BUMP KEY RESISTENT ) SP TSP ASTRAL AP3 euro profile cylinders are all provided as standard with bump key resistant pins. C2000 and Asix euro profile cylinders can be supplied **BKP** upon request.

ASSA ABLOY

## 880 series exit hardware

UNION Architectural Hardware introduces an innovative and contemporary range of exit hardware, exclusively designed to suit higher specification new build and replacement markets.

The UNION 880 Series combines quality engineering and high performance with contemporary aesthetics. The range boasts maximum versatility, comprising of both 'touch bar' and 'push bar' variants for single and double doors.

The new range offers a lighter, smoother and quieter alternative to the traditional bolting action. For single doors there is a choice of either a single point latch variant, or 2/3 point locking using upper and lower Pullman latches. For double doors, a choice of 3 and 5 point locking is available.

Guaranteed for 10 years, the UNION 880 Series is CE marked to BS EN 1125\* and fire tested to BS EN 1634 on both timber and metal doors.

ASSA ABLOY

### 88IT TOUCH BAR RANGE

For doors in buildings accessed by the public - where panic can be foreseen.

**SMART KEY.**

"Bump" resistant technology

ANSI Grade-1 deadbolt rating

Easily re-keyed in seconds

**THE ONLY LOCK YOU CAN RE-KEY YOURSELF**

SmartKey offers a Grade 1 Security Deadbolt in a completely new design - the patented side locking bar technology replaces the traditional pin-&tumbler design which includes BumpGuard for improved security against lock bumping - an attack technique that can defeat conventional pin & tumbler locks. It also provides the flexibility of re-keying your own locks quickly and easily without removing them from the door. Re-key your SmartKey Locks as frequently as you wish while maintaining the highest level of security

**SMART CODE.**

EASY TO INSTALL, PROGRAM AND USE

BACK-LIT KEYPAD FOR INCREASED VISIBILITY

NO MORE WORRYING ABOUT KEYS

**Keyless Entry Deadbolt** - the ultimate in convenience and security  
**One Touch Locking** - with a motorized deadbolt  
**2 Customized access codes** - one code for the family and one code for temporary access  
**Includes SmartKey** - for increased peace of mind

No difficult wiring - uses 4 AA batteries

# BBL KNOBLOCKS

- Opens with key from outside and turn knob from inside
- Fits doors 35-50mm in thickness
- 5-Pin Anti-Pick mechanism
- Deadlocking latch (cannot be opened with credit card)
- Complete with drilling template and fitting instructions

### CISA CYLINDER SASH LOCKS

Robust construction for high level durability and security

Black powder coated case gives exceptional corrosion resistance

Reversible Latch

Anodised Aluminium Handles Available - HMCYL

HMCYL

Separate forend plate in stainless steel or brass to conceal all fixings and 5200 Series adjustment screw

Robust construction for high lever durability and security

Twist reversible latch without dismantling the lockcase to allow on-site handling

35° follower action for firm positive opening action and with strong follower spring suitable for heavy duty lever furniture

Patented 5200 Series spring adjuster to fine tune the strength without removing the lockcase

Single throw bolt with hardened steel rotating pins to protect the bolt for sawing

The case is pierced to accept bolt through furniture fixings at 38mm centres at the follower and the cylinder position

Dual cylinder capability suitable for euro profile or oval profile cylinders. Supplied as standard with conversion plate for euro profile cylinder applications. For oval cylinders simply remove conversion plate

Black powder case gives exceptional corrosion resistance

Screw 'X'

NB- screw 'x' needs to be replaced after conversion plate is removed

## TEL 530/1 Electromechanical Lock

The TEL530/1 Electromechanical Lock is controlled via the access control system in one of two ways

- > The outside handle is electrically controlled by an access control device, such as a key pad or card reader. The inside handle always allows free exit
- > Both handles require access control input to operate

**The lock provides monitoring for:**

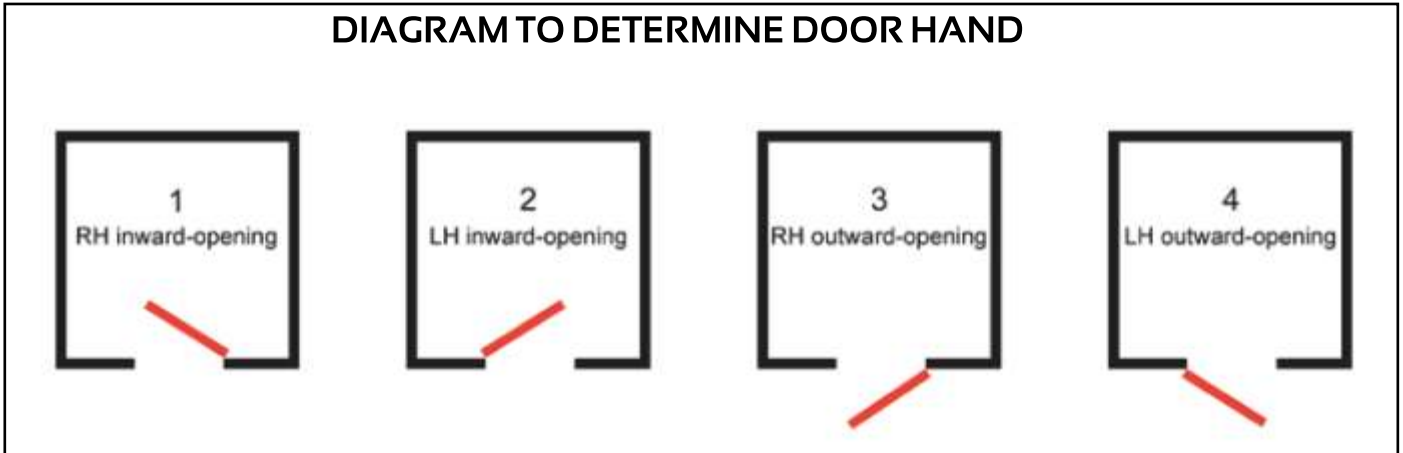

- > External handle operation
- > Deadbolt (locked or unlocked)
- > Cylinder turned
- > Sabotage

**Application:**

- > Typical application access control for commercial building e.g. office doors where aesthetics are a priority

CODE	DESCRIPTION
06510	Contact Set Nylon

# LOCKSMITH TOOLS

**BALLS** - are used for raking and are available in different patterns

**DIAMONDS** - are used for picking or raking. They are especially effective on locks with wafer tumblers

**EXTRACTOR** - are used to retrieve broken keys or other matter from inside the lock.

**HOOKS** - are used for actual picking 1 chamber at a time ( as opposed to raking) They are particularly useful when the lengths of the bottom pins are significantly different

**RAKES** - are used for raking (manipulating pins in all of the chambers at the same time)

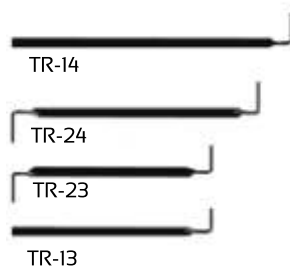

# LOCKSMITH TOOLS

## HPC

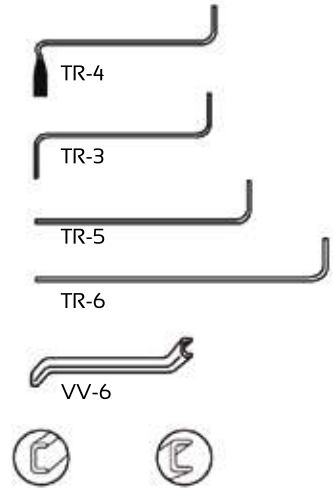

### LIGHT TENSION

### MEDIUM TENSION

### RIGID TENSION

Proper tension is the key to picking and raking locks. Whether your tool of choice is a hook, diamond, ball or rake the lock will not open without just the right amount of tension applied to the cylinder.. HPC manufacture a wide variety of tension tools.

CODE	DESCRIPTION
TR-9	Double-Sided Twist 13.35cm
TR-12	Single-Sided Twist 11.45cm
TR-7	Double-Sided Twist 8.25cm
TR-14	Single-Sided Twist 11.45cm
TR-24	Double-Sided Twist 10.15cm
TR-23	Double-Sided Twist 8.25cm

CODE	DESCRIPTION
TR-13	Single-Sided Twist 8.25cm
TR-4	Twist & Straight 5.70cm
TR-3	Double-Sided Straight 7.00cm
TR-5	Single-Sided Straight 5.70cm
TR-6	Single-Sided Straight 9.50cm
VV-6	Double-Sided Grooved 5.08cm

## TENSION TOOLS FOR TULIP-SHAPED KNOBS

CODE	DESCRIPTION
TR-2	Medium Tension
TR-22	Rigid Tension

## DOUBLE-SIDED TENSION TOOLS

These tension tools are used on double-sided locks

CODE	DESCRIPTION
TEN-7	Zinc Plated Medium Tension
TEN-9	Black Rigid Tension

## VARIABLE-SIZE TENSION TOOLS

The tips of these tension tools can be compressed to fit into keyways of various sizes

CODE	DESCRIPTION
STW-3	For standard locks - automotive & door locks
STW-4	Specially designed for tulip-shaped door knobs

## HANDS-FREE TENSION TOOL KIT

Takes the difficulty out of picking - includes hands-free tension tool and a matching 2-sided rake/diamond pick. The tension tool and picking tools clip together.

CODE	DESCRIPTION
HFTT-KIT	Tension Tool Kit - Hands Free

# LOCKSMITH TOOLS

**HPC**

Spring-controlled tension. Large prongs make it excellent for automotive use.

TNT-21

CODE	DESCRIPTION
TNT-21	Spring Loaded Adjustable Prong

**HPC**

PTT-4  
15.25cm

PTT-5  
11.5cm

CODE	DESCRIPTION
PTT-4	Pin Tumbler Tweezer, provides firm, non-twist grip
PTT-5	Compact Pin Tumbler Tweezer, grips top & bottom pins

**HPC**

Makes it easier to load top pins into cylinder. While top pin is held in place, use forefinger to push the attachment down to set the pin into the chamber. The pin loading wire is easily removable, making this ideal for lading bottom pins as well.

TPT-5  
15.25cm

CODE	DESCRIPTION
TPT-5	Pin tumbler Tweezer with Pin Pushing Attachment

**HPC**

ALCP-10

The Auto Lock Cap Pliers remove auto lock face caps easily. The specially machined tips grip like a vice. When used with care, auto caps can be removed with minimum of distortion allowing re-use of the removed cap.

CODE	DESCRIPTION
ALCP-10	HPC Cap removal pliers

**HPC**

Revolutionary tool that acts as a third hand to hold open the dust cover on auto door locks. This allows you to have both hands free to pick the lock or extract a broken key.

CODE	DESCRIPTION
GTO	HPC Gateway™ Tool

**HPC**

For installing cam locks on metal cabinets, desks, filing cabinets and cash boxes.

Punches 16.4mm x 19.5mm hole in 1.2mm mild steel

CODE	DESCRIPTION
HDPS-4	HPC Metal Punch and Die set.

**HPC**

An inexpensive set of gauges that eliminates the guesswork when reading the tumblers on 6-cut single sided GM keys.

CODE	DESCRIPTION
GMTD-5	HPC GM Tumbler Decoder Gauge

**HPC**

Designed for the swift removal of the side-bar on 1984 -1996 Ford cars. After drilling the side bar, the ignition can be easily removed.

CODE	DESCRIPTION

## SOUBERTOOLS

The DBB Morticer, manufactured by Souber Tools, produces a perfect lock recess every time. It is a genuine 5 minute morticer which is acclaimed by locksmiths and builders alike. For anyone who regularly fits mortice locks it will prove invaluable - an accurate, speedy and professional tool that will save time and money.

- Simple and Easy to use
- Suitable for Wooden Doors
- Cutters for Aluminium Doors Available
- Quick change cutter feature
- Cuts Lock Forend as well as Lock Body
- Supplied complete with comprehensive instructions
- Complete with plastic carrying case

CODE	DESCRIPTION
DBB1	Souber Tools Morticer with 3 Cutter

## SOUBERTOOLS

- Capable of drilling out many locks
- Made of high grade tempered steel
- Does not destroy pins
- Enables decoding of key combination

CODE	DESCRIPTION
TLC1	Tubular Lock Cutter

## SOUBERTOOLS

- Krypton - Broad Spectrum Bulb
- Switchless design
- Lightweight aluminium body
- Complete with storage tube

CODE	DESCRIPTION
AL-10500	Car Opening Light 2AA Cell Hardbody

## HPC GRAPHITE GUN

- Fine dry lubricant - sprays in any direction.
- Refillable Rubber Holder
- Spill-Proof
- Clog-Proof
- Leak-Proof

CODE	DESCRIPTION
HGG	Graphite Powder LockLubricant

"JUST-A-PUFF" is a special dry lubricant developed for cylinders and padlocks.

Does not attract dust and dirt like traditional lubricants that would clog up the sensitive pins and springs inside.

CODE	DESCRIPTION
DY21402	Graphite Powder LockLubricant

# KEY CUTTING MACHINES

**KZ KEYLINE**

**BI-992**

## 3-AXIS COMPUTERIZED MILLING MACHINE

The **VERSA** is the fastest 3-Axis Milling Machine available.

Automatic callibration with key counter.

Stand-alone with database and codes - no computer required.

Cuts keys to code or copy sample key.

Engraving can be done on the head of the key

Cutter specific or general cutter can be used for drilling/dimple keys.

Complete with 4 jaws - Optional jaws available.

**KZ KEYLINE**

**BI-996**

## COMPUTERIZED CAR & LATCH MACHINE

The **DEZMO** is the fastest latch and car code electronic machine available.

Has a high workload rating

High Speed High Resolution Camera on machine to accurately copy and decode keys to original specification or as per sample.

4-sided jaw with quick release and turn lever - no more swarf in your fingers.

Auto-feeder option.

Driven by Instacode onboard data base - communicates with Instacode

1 GIG memory - largest stand alone data base in the world.

Carbide Wierda Cutter for high speed cutting and longer life of cutter

# KEY CUTTING MACHINES

**KZ KEYLINE**

**BI-993**

## ELECTRONIC MORTICE MACHINE

The Power Lynx is an Electronic Mortice Machine - when perfection and accuracy are demanded

Has a high resolution camera and a database of keys and codes so keys can be copied or cut by code.

Stand-alone machine - no other computer is necessary

Standard with mortice and double bitted jaw.

Keys cut without removing or rotating keys in the jaw.

Communicates with Instacode Base Program - no interface required.

Machine can cut non conductive key material eg. Zamak

Optional Jaws available: Ford Tibbe, Abloy, Abus, Chubb RKS and Kromer

**KZ KEYLINE**

**BI-994**

## 2-AXIS COMPUTERIZED MILLING MACHINE

Best 2-Axis Milling Machine available in it's class.

Supplied complete with 4 jaws to clamp all auto-lazer/milled keys.

Full database of all keys cut to code as well as de-code and copy.

Keys can be cut by bitting only when stripping lock.

This stand alone machine includes software and all cutting data.

Can retain customer details as well as keys cut.

Communicates with Instacode Base program - no interface required.

Often purchased together with the Manual Milling/ Drilling Machine

# KEY CUTTING MACHINES

**KZ KEYLINE**

**BI-106**

One of the best Latch Machines available -It is incredibly accurate, comfortable and easy to use.  
New Easy Jaw Rotate Mechanism - No more swarf in your fingers - grooves milled away at the base of jaw to allow the swarf to fall away from the jaw.  
4-Sided Jaw.  
Replaceable Tracer Point - quick and easy to replace.  
Key Gauge Protection - Carriage cannot move forward until the key gauge is in the down position.  
Machine automatically starts running when carriage is moved forward.  
Machine can be ordered without the light fitting.

**KZ KEYLINE**

**BI-206**

This is the heaviest Mortice Machine in its class - with linear guides as well as dampers to allow for extremely accurate key cutting.

Cuts Mortice keys with sideways, bullet wards, double bitted keys and flat steel keys.

Key Turret can be moved from left to right allowing you to cut Bullet and Sward Keys without removing the key from the jaw.

Fixed position locator on Cutter Turret to accurately align keys with the centre axis of the cutter.

Cutter Guard on main cutter as well as the warding cutter.

**KZ KEYLINE**

**BI-FOCUS**

Machine for cutting Ford type keys by code.

It allows duplication of a coded key on both sides without having to turn the key, thanks to a special clamp with a 360° selector device to set the cutting angle.

Machine produced to CE standards.

**JMA**

Dakar Express - Milling and Drilling Machine.  
Excellent value European Milling machine.  
Extremely accurate with keyless chucks quick release system.  
LED quick calibration indicators.  
Spring loaded tracer point for dimple type keys.  
Damper springs on jaw bed.  
Carriage and head can be locked in any position.  
Complete with Mul-T Lock , milling, dimple cutters and guides.  
This machine is often purchased together with BI-994.

# KEY CUTTING MACHINES

**JMA**  
**TITAN**

Semi-Automatic duplicating  
flat / latch keys for cylinders  
and automobile locks

**JMA**  
**MULTIMARK**

**MULTIMARK ENGRAVING MACHINE**  
The Multimark machine is useful for personalizing keys,  
cylinders or other metallic surfaces with texts, images  
and logos as desired.

**GLadaid**  
**GL-303**

Best entry level Milling/Drilling machine  
Turret can be locked at any height  
Micrometer adjustments on tracer  
Springloaded tracer to locate and hold sample key  
Tracer can be locked when used for milling  
Synchronised tilting jaws 0 - 45°  
Tibbe and Tubular attachments available  
Complete with full range of cutters - largest range  
of cutters out of the box

**GLadaid**  
**GL-888A**

Dual Keycutting Machine

Multi-functional key duplicator equipped with 2  
different cutters (latch & mortice)

Latch Cutter GL8811 76 x 6 x  
Mortice GL8823 70 x 1.15 x 25.4

Used only in extremely low volume applications.

Budget Price

**GLadaid**  
**GL-888C**

Dual Keycutting Machine

Multi-functional key duplicator equipped with 2  
different cutters (latch & mortice)

Latch Cutter GL8811 76 x 6 x  
Mortice GL8823 70 x 1.15 x 25.4

Used only in extremely low volume applications.

Budget Price

# KEY CUTTING MACHINES

## RST KEY MACHINES

TM-1011

Fast and Reliable Mortice Machine

Is known for its accuracy and ease of operation.

Side and Bullet Warding easily cut.

## RST KEY MACHINES

Mortice Machine for mortice, double bitted keys and flat steel keys

Side and Bullet Warding

X and Y axis controlled with 1 lever

Radius cutting facility on key

Excellent Value for money machine

TM1019

## RST KEY MACHINES

TM1014

Ford Tibbe Machine

Keys cut to code

Extremely accurate

Does not copy from a worn sample but to original specification

## 102X

Latch and Car keys Duplicated

Reliable and Accurate

Sintered Metal Jaw

Entry level Budget Key Machine

# KEY CUTTING MACHINES

HPC

**Original Blitz 1200CMB240V**

The Original Code Machine complete with 150 Cards and 2 Cutters - Best selling code machine in the world  
Easy to use and extremely accurate machine

**OPTIONAL**

**TIBBE-CMB**

With the Tibbe Key Adapter kit you can cut both 6-space and 8-space Tibbe Keys - these keys are used by some Ford and Jaguar cars.

HPC

**CodeMax 1200MAX240V**

The CodeMax is the original computerized code machine - based on the standard Blitz machine

This standalone machine cuts most car & cylinder keys to code and can be linked to a PC with insta-code or HPC CodeSource

The cutter pivots automatically to cut high security angle keys such as Medeco

Double sided jaw

Micrometer function

Complete with 5 cutters

Easy to use LCD screen

Optional attachments available

# KEY CUTTING MACHINES

## ELLIS 103

- Tubular key duplicating machine
- 220V
- Clamp will hold keys between 7.5 and 7.8mm
- Supplied with user and setting instructions

## ELLIS 007AW

- 12V DC latch machine
- Low volume machine
- Excellent for service vehicles
- Fully portable machine

## GL-FORD

- Quality made attachment
- For originating Ford Tibbe keys
- For all makes of Milling Machines
- Complete with cutters and guides
- 360° key rotation in attachment
- Key is cut to code, ensuring a smooth operating key

# TRANSPONDER

## ADVANCED DIAGNOSTICS

### AD100Pro

AD100Pro

Transponder Key Programming

Remote Programming

Pincode Extraction, Fault Clearing

ECU Coding

Transponder Key Erasing

Updates via Web

2 Software Version loaded on machine  
- use either Standard or Beta

Purchase only selected software as required

Large LCD screen

Mechanical Keycode Extraction

## ADVANCED DIAGNOSTICS

### MVP-PRO

Extremely low initial capital outlay - the unit comes fully loaded with all software from Advanced Diagnostics including all cables and hardware.

It works like the AD100Pro except the user only pays per use with tokens purchased over the internet.

Is supplied preloaded with 10 tokens

Tester warns before deducting tokens

# TRANSPONDER

## ADVANCED DIAGNOSTICS

## AD35

### FREQUENCY TESTER

Checks whether customer remote key is working and transmitting correctly.  
Checks the antennae near the ignition barrel - provides visual & audible indication of antenna power.

On certain vehicles switching the ignition on - will indicate a frequency sent & received.

Checks & displays the exact frequency transmitted.

Prevents wasting time trying to make keys to faulty system

Supplied complete with leather pouch

## ADVANCED DIAGNOSTICS

## ADC116

### OBD TESTER

The quickest way to check that the OBD Port is supplying 12 Volts

Checks for good ground

Checks if Pin 7 on VW / VAG is connected to an aftermarket radio correctly (incorrect wiring of aftermarket radio can damage your AD100Pro / MVP-PRO)

## ADVANCED DIAGNOSTICS

## AD36

### VW/AUDI Pin Code Reader

Device that interfaces with PC for pulling System 1 Pincodes  
Immobiliser must be removed from Vehicle and once read reinstalled and the AD100PRO can then code the transponder  
Software supplied with the unit  
Manual with clear and easy to follow instructions

## ADVANCED DIAGNOSTICS

## AD37

### GM/OPEL Pin Code Reader

Device that interfaces with a PC for pulling System 1 Pincodes  
Reads Pin code by removing immobilizer from area around ignition barrel which is attached to the Aerial extremely easy to remove  
Will pul codes from locked system  
Software supplied  
Manual with easy and clear instructions

# TRANSPONDERS

## AD900PRO

### Professional Transponder Duplicating Machine

The most advanced Transponder cloning read and write machine available

- Copies all copiable transponders including Texas 4C and 4D
- Random Code Generation
- Unlocks Megamos Crypto 48
- Transponder pin Code Reading
- 50 Different EPROM programs available
- Regular updates via Web
- More details available on our Website [www.bblocks.co.za](http://www.bblocks.co.za)
- Internet connection required for certain operations
- Can be used in conjunction with Omega kit
- Can copy JMA Keyline and Silca Transponder keys

### Options

AD900PRO-FL	Fully loaded with all software and options for the locksmith that does not want to turn any business away
AD900PRO-PR	Loaded with all cloning generating software as well as pin code Calculators
AD900PRO-CL	Loaded with all Cloning Software to copy only including Texas TPX1 and TPX2

## OMEGA-F

Full Kit - Locksmith will need to read most microprocessors and eeproms

Complete with all clips, cables and adaptors

Used in conjunction with AD900Pro

Adaptor to read Nissan Nats 5 codes through connector plug on aerial

BMW EWS3 in circuit reading

Can read a wide range of vehicles

# TRANSPONDER

**JMA** 

## TRS-5000 + TPX CLONER

THE SIMPLEST AND MOST ADVANCED WAY TO CLONE KEYS WITH  
TPX1 & TPX2 TRANSPONDERS FROM JMA

TRS5000

TPX CLONER

The solution for cloning Texas Fixed and Crypto Transponders - especially designed for cloning transponders in the new TPX1 and TPX2 transponders developed by JMA.

The TPX Cloner will always operate connected to the TRS-5000 machine via the RS-232 serial port and no internet connection is required.

Clones most cars including Ford, Opel (incl. Crypto Unlocked) Toyota, Nissan, Mitsubishi, Volkswagen (up till 2002) Peugeot, Mercedes Sprinter and numerous other vehicles.

Will also unlock TPO8/ID48 Megamos.

Can also be connected to the AD900PRO, making the cloning of TPX transponders stand alone

**BEST SELLING CLONER IN SOUTH AFRICA**

## WH SOFTWARE

### THE TOTAL LOCKSMITH MANAGEMENT TOOL

InstaCode is considered the leading Key Data Software throughout the world. With over 3 billion key codes, and new codes added daily, InstaCode is a vital tool for any professional locksmith.

Compared to code books or any other code package, Instacode is a quick, easy to use program.

A graphical layout displaying space & depth information, flat widths, angles, card number and other relevant key cutting information makes InstaCode easier to use than many alternatives.

#### WH-BASE

##### **Instacode Base Program**

- Print cards for HPC machine
- Print out entire code series
- Regular updates via internet
- Optional add-on packages
- Finds missing cuts if wafers are not in lock and will provide a cutting tree
- Communicates with most electronic machines eg. Silca Unocode, Quattrocode, Triax (with add on module) HPC Blue Shark Codemax, JMA Procode, Keyline 994, Versa & 993 and others

#### WH-AUTO

##### **Instacode Automotive Add-on Module**

- Optional add-on to Instacode Base Program
- Provides detailed information on ASP replacement locks
- Provides detailed opening information and diagrams of ASP locks
- Transponder information as well as position of diagnostic plugs etc.

#### WH-MIKEY

##### **Instacode Masterkey Add-on Module**

- Optional add on to Instacode Base Program, allowing locksmiths to design simple masterkeying projects

#### WH-POCK

##### **Instacode Pocket Software - Add-on or Standalone**

- Optional add or standalone package, which can be loaded on a PDA or mobile phone which runs on Microsoft Mobile. Full database of codes in your pocket

#### WH-TRIAX

##### **Instacode Interface Program**

- Interface Software to allow seamless intergration with Silca Triax milling machine

#### WH-PROMAST

##### **Promaster Proffesional Masterkeying Program**

- Professional masterkeying program with full range of reports.
